

Donor Spotlight – Daniel and Susan Gottlieb

Susan and Dan Gottlieb are lovers of native flora and fauna and devoted environmental philanthropists. Both are also respected nature and wildlife photographers who live in California and have property on White Lake in Ontario.

They have been supporters of Watersheds Canada through funding native plant restoration projects that help out lakes and rivers.

This year they have funded the Natural Edge program that works with landowners to restore their shorelines and created the Daniel and Susan Gottlieb Lake Stewardship Grant Program. Seventeen Grants were awarded to lake associations across Ontario to host invasive species monitoring, water quality testing, and other educational projects

Cavendish Community Ratepayers Association Inc., was pleased to be one of the recipients of the grant covering Shoreline Plants and the Lake Protection Workbooks in the summer of 2019.
